Grant Application – Proposition 84 Funds
Tujunga Wash Greenway Infrastructure Improvements

Dear Chairperson Parks and Conservancy Members:

I am pleased to present the enclosed application for an infrastructure improvements grant for the Tujunga Wash Greenway. The MRCA requests a grant in the sum of $100,000 from the Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006 (Proposition 84).

The proposed grant would fund rehabilitation of the majority of the irrigation system that utilized circa-2004 technology, thus ensuring that a reliable source of water is available for ongoing maintenance, and prepare the park for ongoing drought conditions. The irrigation design will reflect current site conditions and state-of-the-art water conservation technology, and is necessary to ensure continued visitor use, resource protection, and functionality of the greenway. If you have any questions regarding this, please contact Mario Sandoval, at 323-221-9944, extension 123.

Sincerely,

George Lange  
Chair
Project Title: Tujunga Wash Greenway Infrastructure
Funds: Proposition 84
Applicant Name: Mountains Recreation & Conservation Authority
Address: 570 West Avenue 26, Suite 100
State/Province: Los Angeles, CA
Zip/Postal code: 90065
Phone: 323-221-9944
Fax: 323-221-9934
Date: 10/20/2015
Amount: 100,000
Match amount: 0.00
Match source: n/a
Total Project Cost: 100,000

Brief Project Description: Improvements to the Tujunga Wash Greenway infrastructure.

Grantee's Authorized Representative: Lisa Soghor, Deputy Executive Officer 323-221-9944, x105 lisa.soghor@mrca.ca.gov
Person with day-to-day responsibility: Mario Sandoval, Project Analyst I 323-221-9944, x123 mario.sandoval@mrca.ca.gov

Project Objective: The proposed grant would rehabilitate the majority of the Tujunga Wash Greenway's irrigation system to ensure that a reliable source of water is available for ongoing project sustainability and maintenance, and prepare the site for continued drought conditions. The irrigation design will reflect current site conditions and state-of-the-art water conservation technology, and is necessary to ensure continued resource protection, visitor use, and functionality of the greenway.
